

WOOD BLOCK PAVING ABOUT THE NEW DEPOT

FINISHING TOUCHES NOW BEING DONE AT FINE BUILDING—PUBLIC OPENING FIRST OF JUNE WILL BE HELD, FROM PRESENT APPEARANCES.

Handsome new block paving has been about finished in the grand approach driveway court to the new L. & N. depot and persons in authority on the site yesterday freely declared that the building would be ready for use by the first day of June, or very early thereafter. The paving will be extensive, as much as 10,000 square feet being planned, and the greater part, if not the entire, paving will be of the locally-manufactured cressed block product.

Concrete floors extending the entire length of the train sheds have been completed, and light fixtures erected, electric lights to be used in profusion through the building and train yard. Debris, left from the building operations, is being moved rapidly, and some little attention has been given to clearing the grounds on all sides. The city has done a lot of work in nearby parkways, and large flowering plants will have covered themselves with blooms this summer, it was thought. Some trees and grasses have been planted, and far different will be the approach to the new depot than that of the old one.

The new building has already become a favorite point of interest with citizen and stranger alike, and in the afternoons and on Sundays, scores of people visit the grounds and admire with complimentary remarks the building long needed in the Deep Water City.

WILL REHEARSE THE "CREATION"

THOSE WHO ARE TO PARTICIPATE IN ITS PRESENTATION GATHER MONDAY EVENING.

The full rehearsal for band and chorus of Haydn's "Creation," to be held Monday evening will be a most important one.

The engagement of the opera house for the performance, which is to be on Tuesday, the 13th, has rendered

necessary a number of fresh arrangements, which will be announced at the rehearsal. The full contingent of brass and Wood-Wind will be present, and the entire work will be gone through as if at performance.

The arrangements concerning tickets will be one very important matter to decide at the rehearsal, and an announcement for the information of the public will be made in Tuesday's Journal.

Madame Emma LaPrade Tam, who has been engaged as principal soprano, is an oratorio singer of ability; and may be relied upon to give a good account of the solos assigned to her; especially in "The Marvellous Work," where a thrilling high C is so essential, and is in fact the climax of that number.

Mr. Robert Lawrence, who is coming from New Orleans, for the performance, has appeared as baritone soloist for several years at the concerts given by the Boston Symphony Orchestra. He is known throughout the states as professional singer of first class repute; and has for the past six years been accepted as the undisputed head of vocal and choral music in New Orleans.

His wide, practical experience as both teacher and singer insures a fine performance of the baritone solos for which he will be responsible.

NEEDLE IN HEART KILLS BABY GIRL

Thought She Had Pneumonia Until X-Ray Was Applied and the Doctor Found It Embedded in the Vital Spot.

New York, May 3.—"A needle in the heart" is the physician's report of the cause of death of a 2-year-old daughter of Samuel Zuckerbrod, an East Side tailor. Nearly a year ago the baby swallowed one of her father's needles. It was thought recently that she had pneumonia, until the X-ray was applied, and the doctor found that the forgotten needle had traveled until it embedded itself in the heart.

"How will I find the house?" asked the cook who had booked for Lonelyville.

"Can't go wrong," said her employer. "Our suburb maintains a reception committee at the depot."—Louisville Courier-Journal.

Some men are proud of having descended from their ancestors, and others boast of having risen above them.—Philadelphia Record.

Viavi

TO THE LADIES OF PENSACOLA: We have removed the VI-AVI offices from 411 to 515-516 Blount Building, and will be glad to have old friends as well as new ones, call on us.

In connection with the office we have opened treatment rooms, giving Vibratory and Massage. These treatments are free to our patrons. Others wishing these treatments can get full information at our office or by telephone.

Office Hours: 9 to 12, 1 to 5

FAMOUS IN A DAY FOR THE BEAUTY OF HER HANDS AND ARMS

A Free Prescription that Does Its Work Over Night You Can Prepare It at Your Own Home.

"It's my own discovery and it takes just one night to get such marvelous results," answers Camille de Verlac, when her friends ask her about the marvelous change in the appearance of her hands and arms. "You can do the same thing if you take my advice," she says. "I feel it my duty to tell every woman what this wonderful prescription did for me. Just think of it! It did all this in one night."

It affords me a world of pleasure to tell anyone else just how such remarkable results were brought about. I give you, absolutely free, the identical prescription which has made me so happy by beautifying my hands and arms. You can form no idea of the marvelous change it will make in just one application. The prescription which can be prepared at your own home is as follows:

Go to any drug store and get an ounce bottle of Kulus Compound. Pour the entire contents into a two-ounce bottle, add a quarter ounce of witch hazel and fill with water. Mix this at home. Apply night and morning. The first application will delight you. It gives the skin a velvety softness, obliterates all discolorations such as tan, sun spots, freckles and coarse pores, roughness, and, in fact, every blemish the skin is heir to. It also produces a marvelous effect on the face, neck and shoulders. It is deliciously cool and soothing and is not affected by perspiration. It will not rub off.

If the neck is discolored from being exposed to the sun or from wearing high collars, this prescription will immediately relieve that condition. No matter how rough and ungainly the hands and arms, or what abuses they have had through hard work, no matter what exposure the skin has had to sun and wind, this prescription will work a wonderful transformation. Thousands of women are using this prescription with just the same results that I have had." (adv.)

ART WORKS VALUED AT \$50,000,000

J. P. Morgan's Collection is Estimated at That Amount For Getting Approximately \$25,000,000 Insurance.

New York, May 3.—The official valuation of the art collections of J. P. Morgan in the Metropolitan Museum and in the Morgan Library is \$50,000,000.

New York's Fire Insurance Exchange has begun a survey of the museum, the first made in several years, at the request of the museum trustees as a basis for the readjustment of the contents of the building. The necessity for a readjustment was declared to be the completion of the project, already well under way, of insuring the Morgan collections.

No statement, no intimation of J. P. Morgan's intentions with regard to the treasures gathered by his father has yet been made public. No communication, it is said officially, has come to the trustees of the Metropolitan from Morgan.

SMACK SILVA ARRIVES FROM GLOUCESTER

WAS RECENTLY PURCHASED BY THE WARREN FISH COMPANY—SIX OTHER SMACKS ARRIVE WITH SNAPPERS AND GROUPERS.

Nineteen days out from Gloucester, the fishing smack Clara G. Silva, Captain Guttarmson, arrived yesterday to the Warren Fish Company, which firm recently purchased her. The smack did not stop at the fishing banks enroute to Pensacola, as she was not fitted out at Gloucester with supplies.

The Silva is 85 feet long, has a breadth of 21 feet and draws 9 feet of water. She has a net tonnage of 50 and was built in 1906 at Essex, Mass.

Captain Guttarmson will not remain in command of the Silva, but will return to Gloucester in about a week, as he was only under contract to bring the vessel here.

Six Smacks Arrive. Six smacks arrived in port from the fishing grounds yesterday, four of them to the Warren Fish Company and two to the E. E. Saunders Co. The smacks arriving to the Warren Fish Company were as follows: Silas Stearns, with 16,000 pounds of red snappers, 6,000 pounds groupers; Galatea, 8,000 pounds snappers, 1,000 pounds groupers; Amy Wilcox 12,000 pounds snappers, 5,000 pounds groupers.

The Emma Jane also arrived to the Warren Fish Company. She had a very small catch.

The following smacks arrived to E. E. Saunders & Co.: Emelia Enos, 35,000 pounds of red snappers, 10,000 pounds of groupers; Cavalier, 16,000 pounds of snappers, 5,000 pounds groupers.

The Victor-Victrola

VICTROLA IV, \$15.

VICTROLA X, \$75.

Brings the World's Amusements into your Home

If the Victor-Victrola did nothing but bring to you the soul-stirring arias and concerted numbers of opera, beautifully rendered by the world's greatest artists, that alone would make it a treasured addition to your home.

But besides the compositions of the great masters, the Victor-Victrola brings into your home a wonderful variety of music and mirth, that satisfies alike the longing for musical harmonies and the taste for sheer entertainments.

And as you sit and enjoy all these musical riches you will marvel at the varied accomplishments of the Victor-Victrola and thoroughly appreciate its value as a companion and entertainer—a treasured possession in your home.

We will gladly demonstrate the Victor-Victrola to you and play any music you wish to hear.

Other styles than these shown at \$25, \$40, \$50, \$100, \$150, \$200. Write for free catalogue.

Not a Bachelor.

The Chicago Record-Herald relates that William J. Burns, congratulated on his success in capturing the Muska family, said to a New York reporter: "It is all a matter of observation and analysis. To the good detective

every slightest action speaks volumes.

"I, for example, was once looking for a widower. But the man I had under surveillance stoutly declared himself to be a bachelor. One morning, however, I saw him pay a bill—and in doing so he turned his back to

everybody in the room before taking out his pocketbook.

"Instantly I laid one hand on his shoulder.

"Come with me," I said. "You are no bachelor. You are a widower or a married man."

RAILROAD SUES TO CONDEMN WATER FRONT

GULF, FLORIDA AND ALABAMA FILES PETITION TO HAVE CERTAIN VALUABLE PROPERTY TURNED OVER TO THEM TO COMPLETE TERMINALS.

In the office of Circuit Court Clerk James Macgibbon yesterday, a suit was filed by the Gulf, Florida and Alabama Railway Company against C. W. Lamar and Lee Daniel for the condemnation of certain property in the water front.

In the petition to the court the plaintiff, through its attorneys, Blount & Blount & Carter, states that it desires to condemn certain parcels of land in the waterfront of the city of Pensacola, which is fully described in the petition. It is further stated that the purpose of the said property is to complete and make usable a certain grant of land in the waterfront of the city.

The petition further alleges that the property in question was granted by the city to the railroad company for the purpose of building piers and yards and for the erection thereon of such structures as are usually maintained for the operation of a railway marine terminal, and that the property described and sought to be condemned by the proceedings is necessary for the purpose aforesaid.

The property which is sought to be condemned by the railroad company is as much that portion of 28, 31, and 33 in the waterfront of the city described as follows: all of lots 7, 8, 17, and 18 in block 28, and all of lots 7, 8, 17 and 18 in block 31, including a number of smaller divisions. This is one of the most important suits filed in the circuit court in some time and involves some of the most valuable property on the water front.
